

### **My Local Group is large, we are more than 15. Can we register? And if not, what can we do?**

No. The teams reflect the average of European associations, for this reason there are limits of number: at least 5 people, at the most 15 ( Team Leaders included).

In specific cases ( see under) there could be two leaders, so the team will be composed of 16 people at most.

The limit number for the participants includes the leaders.

We suggest to divide the groups with many people in two teams, respecting the number composition indicated in the rules of registration.

Asking for the same route region you will be in the same camp and your local groups could share moments together.

We will do derogation of this limit number just in exceptional cases, after having warned the Staff and after having checked that it is possible for the composition number of the community.

### **In my local group there's more than one adult leader. Can he/she register too?**

It depends on the composition number of the Team:

For teams bordering on 7 rovers, scouts and guides there can be JUST ONE adult leader.

For teams from 8 to 14 rovers, scouts and guides there can be TWO adult leaders.

The limit number of the participants is, in this case, 16:

14 rovers, scouts and guides + 2 leaders, but you have to designate just one leader, and he/she will be responsible for his/her team.

What to do:

- If you have already registered and your team is composed of a number of 7 people and one leader nothing changes.
- If you have already registered and you've divided your group in two teams of max. 16 people (14 rovers, scouts and guides + 2 leaders) you can inform the secretary ( [registration@roverway.it](mailto:registration@roverway.it)) of your intention to be reunited in one team. Before doing that we suggest you to evaluate the importance of living this experience with the right spirit.
- If you have registered forming two teams in which the number of participants is more than 15 nothing changes.
- If haven't registered yet, please consider these suggestions.

### **We are less than 5 people, can we be considered a Team?**

No.

It's not possible in order to grant the right number position in each team and to avoid the presence of too few participants from the same reality.

To reach the minimum number of participants required you can ask other rovers, scouts and guides of your city or region to join you in this experience. The team doesn't need to be the real unit, it means that it can be composed of people coming from different local groups.

**In my local group there's a Spiritual Assistant and he would participate with us. Is it possible?**

Yes.

The Spiritual Assistant can participate because he carries out a liturgic and spiritual service for the Community. In each Community there can be just one Spiritual Assistant for each faith.

Considering that Roverway is a oecumenical, there can be religion ministers of different faiths. Each participant can share important spiritual moments respecting others beliefs.

**How much does the Group Leader have to pay?**

The Team Leader, as the other adults, has to pay the same of each participant. The Route Referents will pay the same sum of the Staff members. Spiritual Assistants have to pay the same sum of money of the IST.

**We would like to take part in the Roverway, but the required sum of money is too much. Why?**

We know that the required sum of money is much more in comparison with other camps, but the Roverway is completely based on the payments of the participants. Anyway, the sum of money to take part in Roverway is more or less the same for other international events.

Just think of how much should you pay to see –in eight days– friends from Portugal, Norway, Sweden, Poland, Serbia...

The sum of money required is different depending on the country of origin. These levels have been decided referring to the mean income of every person in the nation and verifying the subdivision with the scales of the international systems WOSM and WAGGGS.

The sum of money of the richest countries helps the participants of other countries which wouldn't be able to afford it.

Furthermore if you register quickly, you will have a reduction in price. The Roverway's Staff 06 will periodically organise competitions and contests offering free participations and reductions as a prize. This is a good reason to take interest in Roverway 06 and live a year-long experience!

How can I register to Roverway 06? When and how do I have to pay?

You can look at the registration rules on the web site:

<http://www.roverway.it/inglese/iscrizioni.html>

Brief summary:

- Read carefully the registration rules
- Fill in the form in all its parts and send it to the addresses written upon it
- After the confirmation of the registration you will receive the details for the payment of the deposit (terms, expiry).

**We payed the deposit, but one of our rovers, scouts and guides is not coming anymore. Is it possible to have the money back?**

No.

The deposit is not retournable because part of the money will be spent before the beginning of Roverway 06; for example the logistic infrastructure and the camp have to be arranged some months before the beginning.

It is possible to do replacements ( as explained in the rules of registration). Eg: if Mario can't take part in Roverway 06 Giovanna can replace him.

**Is it possible register one or more participants afterward, adding them to the list of the others who were already registered?**

It is possible respecting the composition number of Teams: a Team composed of 12 people can add subsequently 3 participants. We may do derogation of this limit number considering case by case.

**We want to choose the Route. When can we do that and how?**

You can choose your Route after the payment of the first instalment of the sum.

You will be asked to indicate a preference of 3 Routes, filling in a form with the right number.

In the meanwhile you can surf on internet and look at the Routes. If you need more information do not hesitate, please contact the Route Leader.

**What kind of criterion do you use to combine the Team and the Route? What happens if the 3 preferences I have indicated are "full"?**

We will consider:

- the composition number of Teams ( respecting the max. number of italian participants, not more than a third in the total)
- chronological order of the communication
- necessity of two teams, coming from the same "big" unit to be in the same camp. In this case we suggest these two teams to indicate the same preferences, for example: preference 1= region A, preference 2= region B, preference 3= region C for both the teams. It would be better if the preferences of the Route were in the same Region.

If none of your preferences can be satisfied the secretary will assign you a Route considering the geographical preference and the subject-matter.

**In our Association the age subdivisions do not correspond to yours. Can we participate?**

Roverway is an event for young people aged 16-22. If in your Association the age subdivisions do not correspond to our you can take part in Roverway, but you have to respect the number and the age rules, composing "mixed" teams where the members don't come from the same unit.

We may do derogations to this rule just in particular instructive cases.

**In my Local Group there's a person with mobility problems and he/she needs someone to help him/her. Can he/she take part in Roverway?**

Of course!

Roverway 06 is opened to everyone: the people with mobility problems will have all the support they need to live this great adventure. This implies that it is possible to have an assistant, no matter the kind of handicap and the composition number of the Team.

We also have the opportunity to transport people with handicap by car during the Route. The Routes have been projected in order to allow the participation of people with mobility problems. Some Routes, for example those on the high mountains, won't let these people participate, but in the majority of the cases it will be possible. Please, warn the Route Leader in case of problems or specific needs.

**We haven't understood how Roverway 06 works, where and when will be the departure? When will the Roverway 06 finish?**

Roverway 06 begins in the afternoon of Sunday 6<sup>th</sup> August 2006.

There will be ten opening ceremony in ten different cities of Italy, corresponding to the ten regions of the Routes.

Region		Place of the opening ceremony
North- West	Piemonte	Torino
	Valle d'Aosta	
Lombardia		Milano
Emilia Romagna		Bologna
Triveneto	Veneto	Verona
	Friuli Venezia Giulia	
	Trentino Alto Adige	
Alto Tirreno	Toscana	Pisa
	Liguria	
Centre	Lazio	Roma
	Umbria	
Adriatic	Marche	Loreto (AN)
	Abruzzo	
	Molise	
South	Puglia	Bari
	Basilicata	
	Campania	
	Calabria	
Sicilia		Palermo

You have to be in the right city for the opening ceremony depending on the Route you chose. Here starts your adventure with Roverway 06!

At the end of the opening ceremony you'll leave with your formation community to begin your Route.

At the end of the Route you'll move over Loppiano, 30 km far from Florence, in the regular camp. All the participants will arrive within 12.00 on August 11<sup>th</sup>.

After the arrival there will be a ceremony in the regular camp, with all the 5000 participants!  
Roverway 06 ends at 12.00 on Monday 14<sup>th</sup> August.

For those who live abroad we suggest you to organise the journey back considering the Team and the city of departure.

**We are a Group of People, forming a Team, but we don't have a Team leader.**

**Can we register?**

Yes, but just if you are all adults.

The Team leader is responsible for its Team, and this is the same for the Unit leader.

If in your association the Unit leader doesn't exist, or if you are a "mixed" group, not depending on the same Unit, you all have to be adults for questions of civil and penal responsibility.

In this case you have to indicate a spokesman, called Team Speaker, who will keep in touch with the Route Leader, helping the Community Staff.

**What kind of difference is there between a team Leader and a Team Speaker? Are there necessary qualifications of age?**

The Team leader is the head of his Association and responsible of his Team.

Usually the Team leader is also the Unit head, with civil and penal responsibility; he should be more of 23.

The Team Speaker is a figure existing because of the lack of a Team leader in a Team composed by adults. He/ She's just the spokesman of the Team, the referent for communications.

**How far is Loppiano from Florence?**

From the train station in Florence ( Santa Maria Novella) to Loppiano there are

Thirtythree millions- twohundredfifteenthousand-sixhundredeighteen millimetres.

In short, a little bit more than 33 km.
