

The use of money within Roverway 2018

This document gives an overview of the payment options during Roverway 2018. All persons involved in Roverway 2018 receive a personalised chipcard that can be preloaded with tokens. These tokens represent a value of €0,80 (80 Euro cents) per token and can be used to pay for drinks, groceries and snacks. Preloading of the chipcards is possible at manned cashpoints or at the self-service machines. We do accept cash (Euro) but prefer cards because of safety reasons and minimizing of mistakes.

Roverway accepts the following type of cards.

MAESTRO, VISA Electron, VPay (debit cards) and Mastercard, VISA (credit cards). *We do not accept American Express, Diners Club or other brands.*

Opening in The Hague

On 23 July all persons involved in Roverway 2018 will receive their personal chipcard. Tokens can be put on the cards using one of the self-service machines or at the manned cashpoints. At the self-service machines you can pay for your tokens by using one of the accepted cards. The machines do not accept cash of any kind.

During Paths

In the period of 24-28 July, all participants are enjoying the Paths. While on Path there is no real need to buy anything. If participants want to buy souvenirs in local shops or delicacies, for example stroopwafels, to share with friends they will have to use cash money or pay by debit or credit card.

Central camp in Zeewolde

During the central camp in Zeewolde we offer self-service machines and a manned cashpoint (limited opening hours) to load tokens onto your card. The tokens can be used in the Foodhouses, the Rainbow cafe and the pick-up supermarket.

Paying in the Netherlands in general

Cash (Euro) is always accepted in the Netherlands. Be aware that coins of 1 and 2 Euro Cents are not used and total amounts are always rounded of to 5 cents. Banknotes of 200 and 500 euro are only accepted at banks. Debit cards are the main used type of cards and Maestro and Cirrus are commonly accepted. Credit cards like Mastercard and Visa are less commonly used. You often have to pay an extra fee and they are accepted on fewer places.

Refund

Until 5 days after Roverway it will be possible to ask for a refund of the tokens on your card. Instructions will be available at the machines at Zeewolde. We advise you to spend all your tokens and preload only what you expect to spend. Because of the costs, refund is only possible when more than 5 Euros can be refunded.
